Discipline policies

The study of the discipline requires work with information sources, preparation for lectures and practical classes to perform all tasks in accordance with the curriculum.

Preparation for practical classes includes: acquaintance with the questions that are submitted to classes on the relevant topic; study of lecture material. The solution of practical problems should show signs of independence of performance by the applicant of such work, absence of signs of recurrence and plagiarism.

The presence of students in practical and lecture classes is mandatory, and their participation in the discussion of all issues is also important. Missed classes must be completed. Students must adhere to educational ethics, respect the participants in the learning process, adhere to discipline and time (term) parameters of the educational process.

More detailed information about competencies, learning outcomes, teaching methods, assessment forms, independent training is given in the Syllabus (working plan) of the educational discipline (<https://pns.hneu.edu.ua/course/view.php?id=6910>).

Syllabus approved at the meeting of the International Business and Economic Analysis Department.
