

Syllabus of the course

«Higher mathematics»

Specialty	073 Management
Study Programme	Business administration
Study cycle (Bachelor, Master, PhD)	First (bachelor) level of higher education
Course status	Mandatory
Language	English
Term	first year, first semester
ECTS credits	5
Workload	Lectures – 16 hours.
	Practical studies – 16 hours.
	Laboratory studies – 16 hours.
	Self-study — 102 hours.
Assessment system	Grading including Exam
Department	Department of higher mathematics, economical and mathematical methods, room 329 (main building), phone number (057) 7020405 (or 3-33), department site: http://www.vm.hneu.edu.ua/
Teaching staff	Misiura Ievgeniia Iuriivna, PhD in technics, associate professor
Contacts	Misiura Ie. Iu.: Ievgeniia.Misiura@hneu.net
Course schedule	Lectures: according to the schedule Practical studies: according to the schedule Laboratory studies: according to the schedule
Consultations	At the Department of higher mathematics, economical and mathematical methods, offline, according to the schedule, individual, PNS chat.

The purpose of the course is forming future specialists' mathematical knowledge for solving theoretical and practical economic problems in any sphere of a professional activity

Prerequisites for learning

Course content

Content module 1 *Linear algebra and analytical geometry*

- Topic 1. The elements of the theory of matrices and determinants
- Topic 2. The general theory of the system of linear algebraic equations
- Topic 3. The elements of vector algebra. Elements of analytical geometry

Content module 2 *The elements of mathematical analysis*

- Topic 4. The limit of a function and continuity. Differential calculus of the function of one variable
- Topic 5. Analysis of the function of several variables
- Topic 6. Integral calculus
- **Topic 7. Differential equations**
- Topic 8. Series

Teaching environment (software)

Multimedia projector, S. Kuznets PNS, Corporate Zoom system, MatLab, Octave

Assessment system of learning outcomes

Assessment of students' learning outcomes is carried out by the University according to the cumulative 100-point system.

Current control is carried out during lectures, practical and laboratory classes and aims to assess the level of students' readiness to perform particular tasks, and is assessed by the amount of scored points.

Simon Kuznets Kharkiv National University of Economics

The maximum amount during the semester -60 points; the minimum amount required is 35 points. Final control is carried out at the end of the semester in the form of an exam (the maximum amount is 40 points, the minimum amount required is 25 points).

Current control includes the following assessment methods: colloquiums, written tests, homework, laboratory work, independent creative task.

More detailed information on assessment and grading system is given in the technological card of the course.

Course policies

Teaching of the academic discipline is based on the principles of academic integrity.

Violation of academic integrity includes academic plagiarism, fabrication, falsification, cheating, deception, bribery, and biased assessment.

Students may be brought to the following academic responsibility for breach of academic integrity: repeated assessment of the corresponding type of learning activity.

More detailed information about competencies, learning outcomes, teaching methods, assessment forms, self-study is given in the Program of the course.

Syllabus approved at the meeting of the Department 15/03/2023, minutes №10
