Course page on the Moodle platform (personal training system)	<i>https://pns.hneu.edu.ua/</i>
Assessment system of learning outcomes The system of assessment of the formed competencies takes into account the types of	

classes, which include lectures, laboratory classes, as well as the performance of independent work. Assessment of the formed competencies of students is carried out according to the accumulative 100-point system. The current control carried out during the semester during practical (seminary) classes and independent work is estimated by the sum of points scored. The maximum possible number of points for the current and final control during the semester - 100 and the minimum possible number of points - 60.

Current control includes the following control measures: protection of laboratory works; tasks by topics; current control works; presentations on topics.

More detailed information on the assessment and accumulation of points in the discipline is given in the work plan (technological map) of the discipline.

Policies of the Discipline

The teaching of the discipline is based on the principles of academic integrity. Violations of academic integrity include: academic plagiarism, fabrication, falsification, write-off, deception, bribery, or biased evaluation. For violation of academic integrity, students are brought to the following academic responsibility: re-assessment of the relevant type of educational work.

More detailed information about competencies, learning outcomes, teaching methods, assessment forms, independent training is given in the working plan of the educational discipline

Syllabus approved at the meeting of the Department. Protocol № 13 from 20.06.2022
