<b>Learning objectives and skills:</b>	
is to form knowledge system on theoretical and methodological foundations of critical thinking and scientific research, to form research skills for decision making and problem solving..	
<b>Structural and logical scheme of the course</b>	
<b>Prerequisites</b>	<b>Postrequisites</b>
-	-
-	-
<b>Course content</b>	
<b>Module 1. Theoretical fundamentals of critical thinking and scientific activity</b>	
<b>Topic 1. Theoretical basis of scientific research</b>	
<b>Topic 2. Steps of the scientific method. Basic techniques to create ideas</b>	
<b>Topic 3. The technology of working with literature</b>	
<b>Module 2. Technology of scientific research and problems solving</b>	
<b>Topic 4. Methods and techniques of qualitative research</b>	
<b>Topic 5. Quantitative research methods</b>	
<b>Topic 6. Substantiation methods of the problems solving</b>	
<b>Teaching environment (software)</b>	
Multimedia projector, S. Kuznets PNS, Corporate Zoom system	

### **Assessment system**

Assessment of students' learning outcomes is carried out by the University according to the cumulative 100-point system.

Current control is carried out during lectures and practical (seminar) classes and aims to assess the level of students' readiness to perform particular tasks, and is assessed by the amount of scored points.

The maximum amount during the semester – 60 points; the minimum amount required is 35 points. Final control is carried out at the end of the semester in the form of an exam (the maximum amount is 40 points, the minimum amount required is 25 points).

Current control includes the following assessment methods: express tests, competence-based tasks; control works, presentations.

***More detailed information on assessment and grading system is given in the technological card of the course.***

### **Course policies**

Teaching of the academic discipline is based on the principles of academic integrity.

Violation of academic integrity includes academic plagiarism, fabrication, falsification, cheating, deception, bribery, and biased assessment.

Educational students may be brought to the following academic responsibility for breach of academic integrity: repeated assessment of the corresponding type of learning activity.

***More detailed information about competencies, learning outcomes, teaching methods, assessment forms, self-study is given in the Course program.***
